The procedures are as follows:

The process of buying and selling shares is done exclusively through one of the markets. Salam will not be involved with the selling or purchase of shares, on behalf of the shareholders or non-shareholders.

Shareholders who wish to either sell or purchase shares have to complete the documentation necessary for the selling or purchasing of original shares, depending on their requirement. The documentation must include the name of the shareholder, the number of shares he/she wants to sell or purchase, the price of buying or selling, and the name of the company he/she wants to sell/ purchase, and the order must be signed.

If the shareholder wants to sell, he/she needs to show his/her account number and the bank he/she is dealing with, in order to transfer the net value of the shares being sold to the mentioned account. (It is also necessary that the shareholder's signature is confirmed by the bank he/she is dealing with).

The order of selling or buying is sent after completing the forms, signing, and signature ratification, attached with ID or passport copy, to an accredited brokerage company in one of the two markets. For more information on the approved brokerage companies, please visit:

Doha Securities website: <http://www2.dsm.com.qa>

After the completion of the documentation, the sale process is carried out according to the rate as at the sale date; this rate is determined by supply and demand. After the deduction of mediator commission and financial market commission from sale value, the mediator will transfer the net sale value of the shares to the shareholder account, indicated in the order of sale, and the shareholder seller will pay transfer fees. Note that there is a high and low specific rate in each market.

The timing of shares dealing at the Doha Securities Market is: 9:00 to 11:30 am, Sunday to Thursday except on official holidays in Qatar.

[What is the overall company's strategy?](#)

Corporate Strategy

Governed by the Corporate Centre, SIII's Corporate Strategy aims to create maximum value for its shareholders by facilitating investment within our own business activities, as well as the allocation of funds for further investments, both direct and indirect.

As one of SIII's key profit-generating streams, our investment portfolio is structured to generate multi-level protection for our shareholders through business diversification and geographical spread.

The SIII Corporate Strategy takes into account current market economic conditions in its capital allocation, both within and outside of our own umbrella of companies. The Corporate Strategy adheres to a 'Portfolio Investment Model', which is aimed at maximizing shareholder value.

Our direct portfolio takes the form of equity stakes in promising regional companies, while our indirect portfolio consists of broad-based equity shares in local, regional and international equity markets.

Company financial results are also audited annually as well as assessed on a quarterly basis. Reviewing all available data enables the Corporate Center to make regular

informed decisions on both internal and external investments as the representative of shareholders, such as whether to remain committed to a particular activity or investment, reinvest further or divest from it altogether.

Mission and Vision

Mission

To consistently promote sustained growth and continued profitability through the effective deployment of capital resources. To develop and execute corporate strategies that prioritize building and sustaining shareholder value. To conduct our business activities in an ethical and honest manner that meets and exceeds our customers' needs. To become the regional partner of choice for our suppliers and be committed to developing our people and serving the communities in which we operate.

Vision

To fulfill our potential and continually evolve by creating value, growing our businesses through excellence.
